a. From the first settlement of the Colony up to the year 1837 there were no Blue Books issued, and the figures relating to arrivals and departures, shipping, imports and exports, were taken either from the reports of the Harbour Master at Fremantle, or from the Perth newspapers of that period. From 1837 to 1859, inclusive, the Blue Books give only the excess of arrivals over departures, or *vice versa*. b. No records obtainable.

c. Year ended 30th June. d. No Public Debt. e. The exact amount of the Sinking Fund on 31st December in years previous to 1882 are not readily available. f. Half-year ended 30th June. g. Agricultural returns for these years not obtainable, although it is well known that farming was carried on from the first settlement of the Colony. h. The exports up to the year 1834 consisted only of supplies to shipping, of which no record was kept.

i. In addition to this quantity of gold exported, 209,207ozs. were received at the Perth Mint. j. In addition to this quantity of gold exported, 581,183ozs. were received at the Perth Mint. k. In addition to this quantity of gold exported, 860,281ozs. were received at the Perth Mint.

* Half-year to 30th June. † The expenditure from Loans has been classified in this table under the headings made use of in the Schedules to the various Loan Acts, this being the method adopted by the Treasury. Information as to the total amount *actually* spent under some headings of Expenditure is consequently not obtainable, certain items being included under the indefinite heading "Development of Goldfields and Mineral Resources." "Electric Telegraphs," and "Water Supply and Sewerage" are probably most affected by this classification.

* In cases where blanks occur the article, if imported, was probably classified under some general heading and not particularly specified.

† The value of dynamite imported during 1896 (£45,299) was accidentally omitted when making up the Return of Imports for 1896. The amount, therefore, is accounted for in the total Imports for 1897.

‡ £42,000 out of this amount was, through a clerical error, omitted from the total amount of Imports for 1896, and therefore is accounted for in the total Imports for 1897.

N.E.I. Not elsewhere included.

* Included under heading "Orchards."

† The apparent falling off in 1896-97, as regards the heading "Orchards," is to some extent explained by the fact that the acreages now separately specified under "Onions," "Other Root Crops," "Market Gardens," etc., were in previous years all included under the one heading.

‡ *The acreages under "Vines" and "Fruit Trees" in 1896-97 and subsequent years have been compiled on the basis of the actual number of vines and fruit trees planted according to a standard suggested by the Department of Agriculture, which allows 600 vines or 100 fruit trees to the acre; a comparison between the figures of these years and those of previous years is, therefore, valueless.*

‖ Includes 27½ acres *miscellaneous crops.*

NOTE.—This table has been compiled with the special object of showing the value of the importations into Western Australia during the last 10 years of such products of the soil and of live stock as could have been produced within the State, and to serve as a basis for calculations as to the market reasonably to be expected therein for home-grown products.

*Children under the age of seven years are not criminally responsible; those who have attained that age, but are still under fourteen, are only criminally responsible if it is proved that at the time of the offence, they were capable of knowing that they ought to have acted otherwise. In the above table charges have been included concerning children under 7 and over 14. The total of 228 includes, as will be seen, 55 neglected children.

NOTES.—*Assisted Schools, etc.*—Up to and including 1895 the numbers given are those of the "Assisted" or State-aided Denominational Schools. By the "Assisted Schools Abolition Act, 1895," all grants-in-aid to these were abolished from the 31st December of that year. Thereafter these schools ranked as "Private" schools as distinguished from "State" schools. The figures for 1896 and onwards include all private schools, secondary as well as primary, though one of the former (the Perth High School) is subsidised by the State.

The average attendance, and consequently the percentage of attendance to enrolment at these schools, from 1896, is merely estimated, many of the returns forwarded being obviously incorrect.

Government Schools.—For 1898, 1899, 1900, and 1901 the percentage of attendance to enrolment has been calculated on the basis of "average attendance" to "average enrolment."

* Not ascertained previous to 1897.

† Including schools closed during the year, exclusive of cost of administration.

‡ See footnote (†) on page 12.

* Bursaries of the value of Ten pounds have been offered to the girls attending the Elementary Schools for several years past. In 1895 they were extended to the boys also.

† The examination being similar to that laid down for the High School Scholarships, one of which happened to be vacant, this Scholarship was, in place of the bursary, offered to, and accepted by, the boy who had passed; no bursary was, therefore, actually given.

‡ In 1899, one boy and one girl obtaining equal marks, the prize was divided between them. In the above table each has been credited with winning a bursary.

§ In 1899, 1900, and 1901 the bursaries were for boys and girls without distinction of sex.

— Signifies "no record."

No. 5.—*Rainfall in Western Australia during 1901.*

With averages (to the end of 1901) for all stations having at least five years' record. 100 Points=1 inch.
The Sign ... signifies "no rain fell." The Sign — signifies "no record."

NOTE.—The stations are grouped into districts, and these are subdivided into square degrees, which are figured according to the latitude and longitude of the N.W. corner of each square, the first two figures representing the latitude and the last two the longitude, less 100°. Thus Perth is in the square 3115, showing that its latitude is 31° odd minutes, and its longitude 115° odd minutes. The mean rainfall for each square degree is adopted from all the stations situated in that square having complete records for 1901. The average is taken for all years up to and including 1901.
